INTRODUCTION

Welcome to TourMate – Flutter Edition,
the app that simplifies your travels!

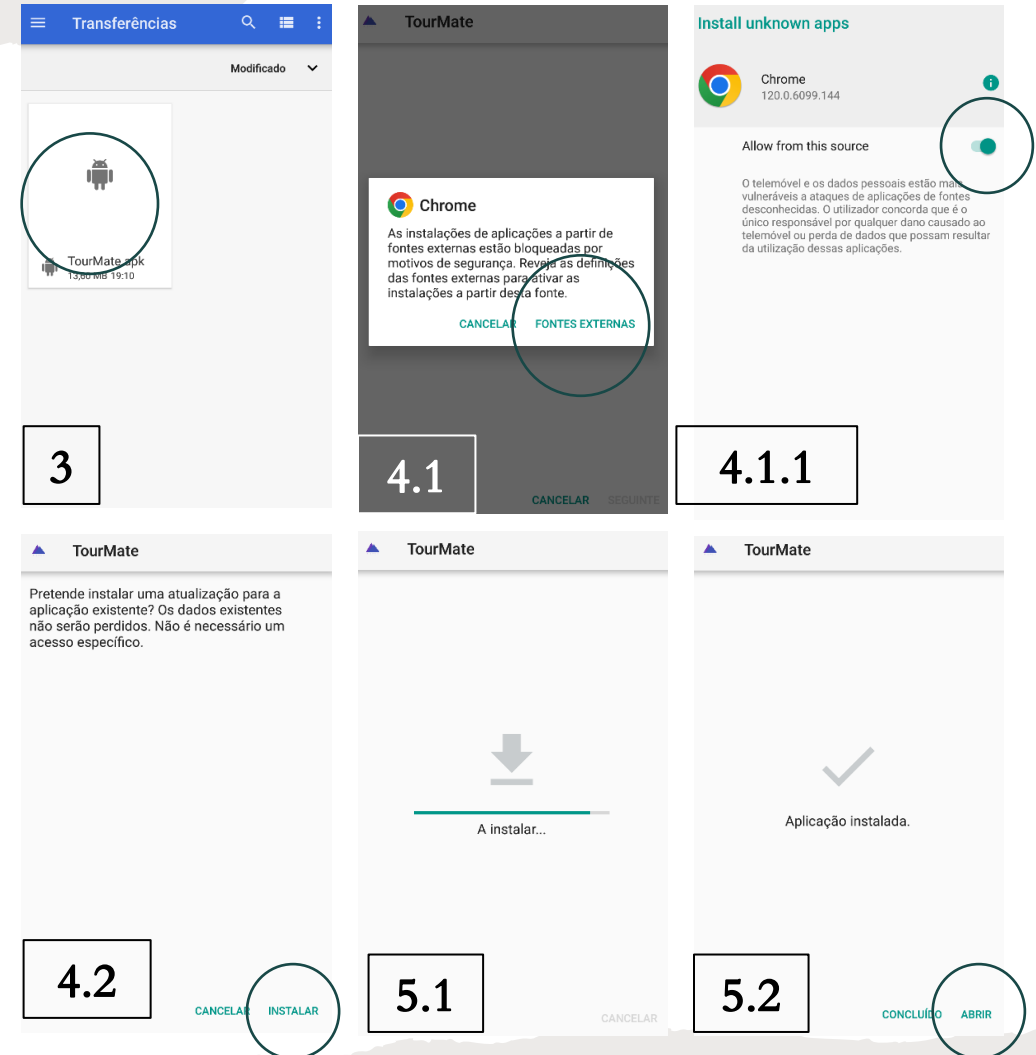

This user manual is designed to guide you
through the features and functionality of
the TourMate – Flutter Edition app.

Whether you're a seasoned traveler or
someone planning their first adventure,
TourMate is here to enhance your trip by
providing valuable insights into various
locations and points of interest.

INTRODUCTION- INSTALLATION PROCESS

1. To install our application, you will need the TourMateFlutterEd.apk file. Just place it in any folder on your Android smartphone (transfer via usb from your computer or download it directly to your phone)
2. Open the Files app
3. Go to the folder where you downloaded TourMateFlutterEd.apk
4. Click on it:
5. It will ask for permissions (if not provided) to install from that source – please allow them
6. It will install the app
7. The app will appear in all apps, but you can open it from the installation prompt

INTERFACE OVERVIEW

When you start the application you will have access to 3 options:

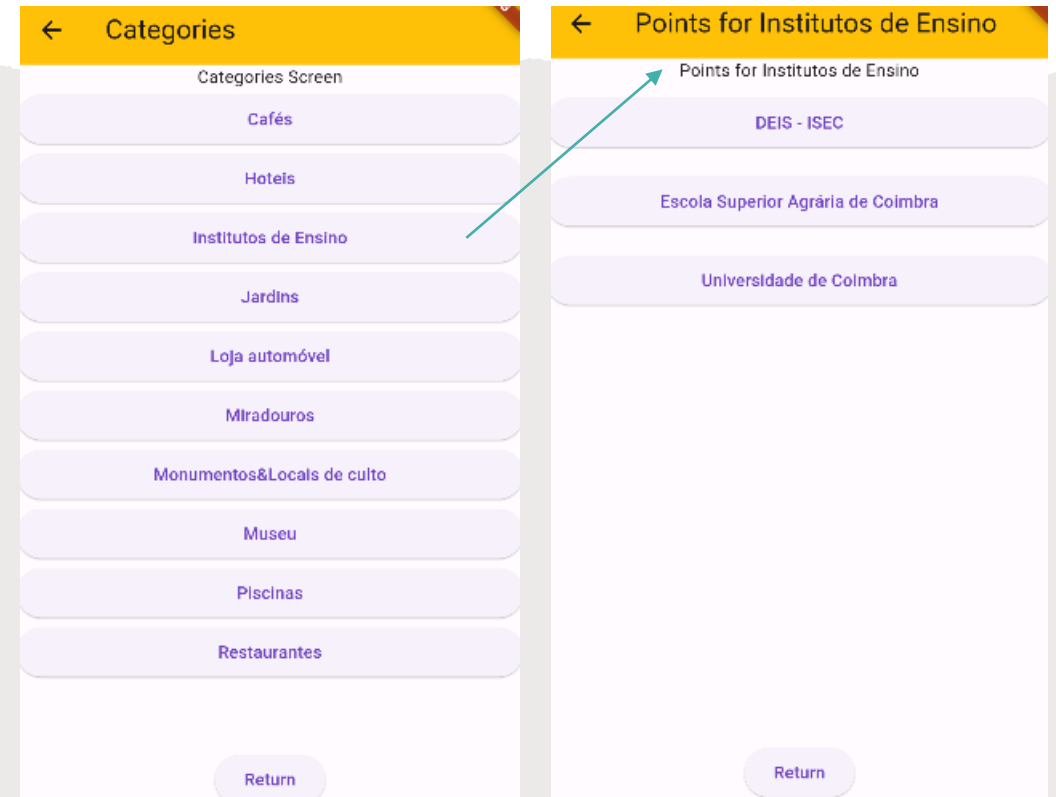

- Categories
- Locations
- Recent Points

To get started, click on Categories

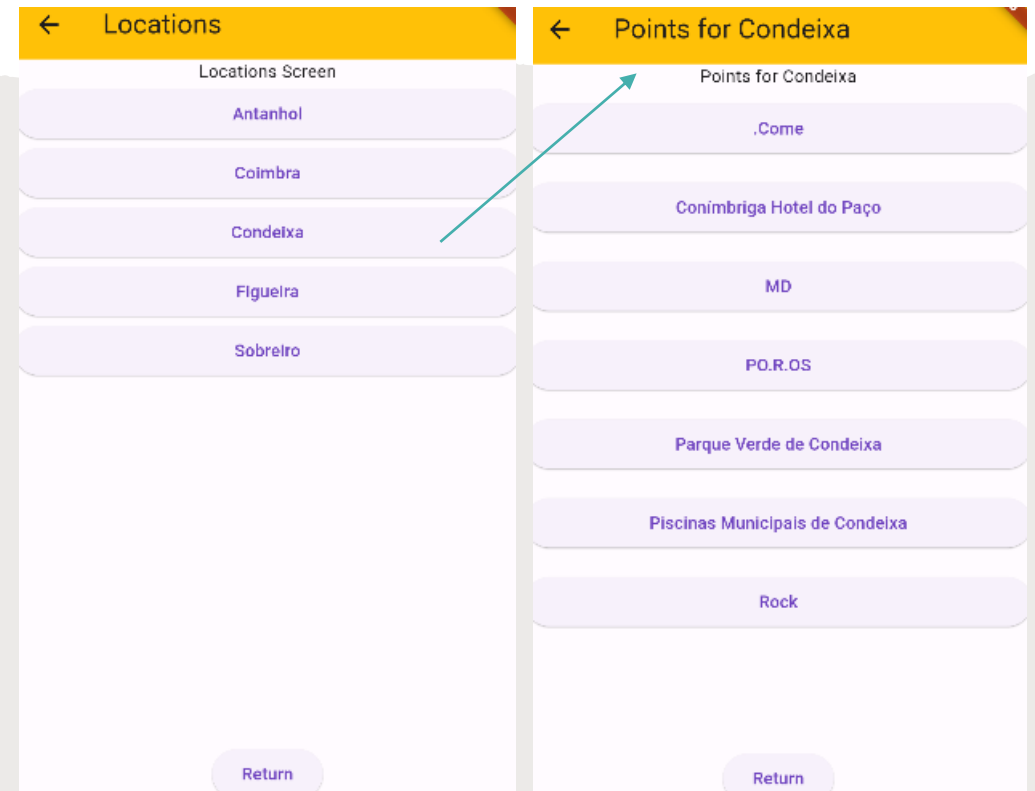

VIEW CATEGORIES

- By clicking on categories, you will be redirected to a screen with the list of all the categories in the app.
- To see the list of locations for each one, just click on one of them.

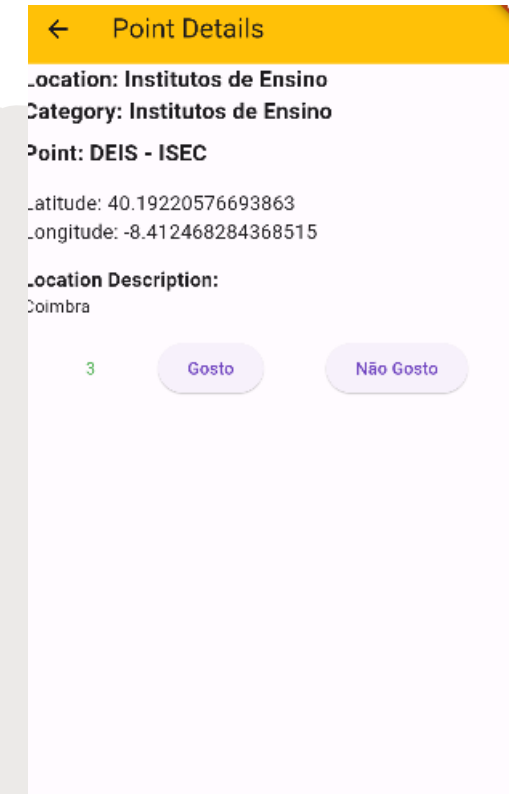

SEE LOCATIONS

- If you click Locations on the home screen, you'll be redirected to a screen with a list of all the Locations in the app.
- To see the list of locations for each one, just click on one of them.

VIEW PLACES

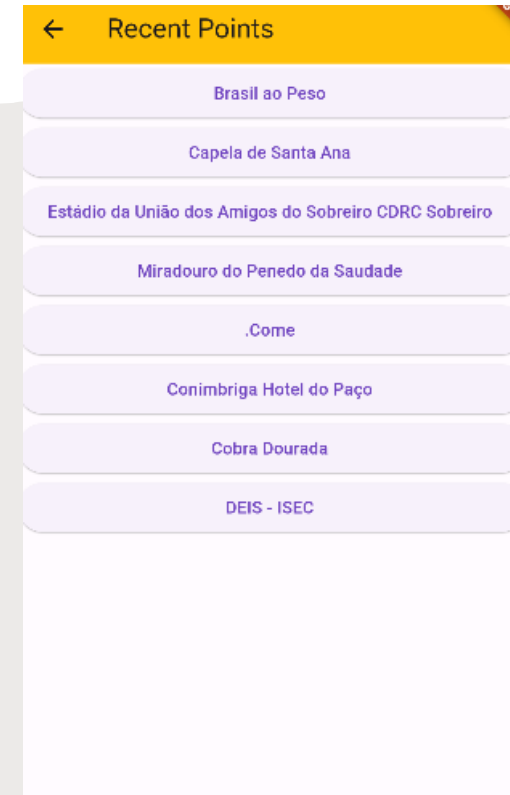

- To see a place, simply click on one of the available places in the list provided by both categories and locations.
- It is also possible to access them through Recently Seen (next page)

RECENT POINTS

By clicking on Recent Points on the home screen, you will be redirected to the page with the +last points accessed.

It also works as a shortcut to access them.
